

Overflow

Vs1 What if I sing of mysteries that only angels see
Without love I'm still just an empty melody
Lord, let me be an instrument in Your great symphony

CHORUS

Spirit of the living God
Come overwhelm my soul
Give me more of you than I can hold
By your touch this broken cup
Of my heart is made whole
So pour Yourself in me and overflow
Pour Yourself in me and overflow

Vs2 Come and fill me, completely
with your mercy ocean deep
For all those thirsty souls needing your eternal spring
Every day, Lord, give me grace for another soul to drink

CHORUS

BRIDGE: You are the stream in my desert
You are the river of all our hope
You are the well of living water
You are the overflow (repeat last time)

CHORUS
