

## Life Begins Now

VS1 Now - is a rush of beating wings  
Pounding heart and space between  
Day breathes in and out again  
Now - every soul is in the stream  
Of a story line in need  
Of a death-defying plan

VS2 Then - God was cornered in the grave  
But another moment came  
Just in time to save the day  
This - is the moment history cracked  
and Love's mighty second act  
Stands forever on the stage  
And its echo never fades

### CHORUS 1

Now arise, now arise - On the breath of Easter morning  
Come alive, come alive - By the breath of Easter morning  
His glory still shines - Now and for all time  
This is where life begins

REFRAIN: Life begins now 4X

VS3 Now - in the time it takes these words  
To fly down a million nerves  
and turn into "I believe"  
Life - like a seed from Eden grows  
And death falls like tattered clothes  
From a heart that Love set free  
Every heart can be set free

### CHORUS 2

Now arise, now arise - On the breath of Easter morning  
Come alive, come alive - By the breath of Easter morning  
Now and forevermore - He is our open door  
This is where life begins

### REFRAIN

#### SOLO

His glory still shines - Now and for all time  
This is where life begins  
Now and forevermore - He is our open door  
This is where life begins

### CHORUS 3

Now arise, now arise - On the breath of Easter morning  
Come alive, come alive - By the breath of Easter morning  
REFRAIN: Life begins now...now
