

# I Still Need a Savior

Vs1: My home in heaven is secure  
My name is in the book of life  
Even so my heart can harbor shadows  
Of doubt, sin and pride

Vs2: Your truth, Oh Lord, has set me free  
Your love revives me like a spring  
Even so I fall and have to follow  
On my knees

## CHORUS

I still need a Savior - Wash my hands and feet  
Breathe a willing spirit - For my flesh is weak  
Heal my broken places - With Your perfect peace  
Watch over me Watch over me

I Still Need a Savior - O, Lord be my strength  
From Your well of wisdom - Give me words to speak  
In the heat of battle - You have promised me  
You'll never leave, You'll never leave... You never leave

Vs3: My hope has bled on solid ground  
Your grace removed my heart of stone  
Even so my feet of clay will stumble  
On my own
