

Life Everlasting

The sunrise obeys you
The rivers laugh and dance
The mountains bow down when
You're walkin thru the land
The wings of angels make waves on amber grain
The songs of the faithful rise like a brand new day

You are my joy - You are my strength
You are Life everlasting
You give me breath - You give me hope
You give life everlasting
So I will praise you all of my days
You are my joy - You are my strength
You are Life everlasting

Who am I that you would
Take on mortality?
What kind of great love does
What you have done for me?
My heart is a manger too common to hold a king
Too small to contain your greatness and majesty

CHORUS

Alleluia, Alleluia 3X

My heart is a manger too common to hold a king
Too small to contain your greatness and majesty

Chorus 2X
