

You Are Here

When I can't find my way, Lord, I look to you
Laying down my heavy load of doubt and fear
I have praised you in the sun
I will praise you in the storm
And find rest...knowing you are here

CHORUS

You are here, my Emmanuel
You are here, saying "Peace, be still"
In my heart, Lord, I can see you walking
Calmly on the troubled waters,
You are here, You are here...with me

In the crucible of pain, Lord, I call to you
Needing courage from your scars to persevere
I have trusted thru the rain
Help me trust you in the fire
And find strength...knowing you are here

CHORUS

You are here – in the darkest valley
You are here – in my deepest sorrow
You are here – I will fear no evil
You are here – and you prepare a table
You are here – Lord I put my trust in you

CHORUS
